

# 8 INCREDIBLE ELEPHANT TALES

Family comes first for these clever and caring creatures...

## Did you know...?

African elephants are slightly bigger than their Asian cousins, and have larger ears in the shape of the African continent.

African Savannah elephants are the biggest land animals on Earth. Standing as tall as four metres and sometimes weighing more than 6,000kg – as heavy as 10 cows – these jumbos aren't dumbos. Elephants have the largest brains of any land mammal – and that includes *you*!

Of course, elephants aren't as clever as humans – our brains are bigger compared with the size of our bodies, and that relationship is one key to intelligence. Still, in the animal kingdom, these huge creatures are practically geniuses.

Here's how they show their smart side in the wild...
