

# Fun stuff!

## Make it

# PAPER

Fill the house with  
spring flowers!

# DAFFODILS!

What you'll need

- Orange or yellow paper (for flower centre)
- Scissors
- Sellotape
- Split pin
- Compass or pin (to make hole)
- Square of yellow or white paper (for petals)
- A4 green paper (for stalk)

Start here!

**1** Cut a circle out of yellow paper, then snip a line from the edge to the middle of the circle. Overlap the cut edges, moving them round to form a cone. Tape in place at the back and push a split pin through the middle. Put to one side.

**2** Fold your square of paper in half diagonally, then fold it again to form a small triangle. Open it out, then cut down each fold, stopping about 4cm from the middle.

**3** Make holes on the right-hand side of every corner of the square, and its centre. Fold each pierced corner up to the middle, one at a time, so the holes line up with the hole in the centre. Ask someone to hold them in place while you push the split pin through and fasten the petals together in the centre. This might get a bit fiddly!

**4** Roll the green paper lengthways into a thin tube, then fasten at the back with tape. This will be the stalk.

**5** Make a hole at the top of the green tube, then push the split pin through and fasten the flower in place.

You can cut your circle in a wavy line!

Q What did the big flower say to the little flower? A What's up, bud? Q What flowers grow on your face? A Tu-lips!
