

## Make paper daffodils primary resource

This Arts & Crafts primary resource shows children how to make their own colourful paper daffodils.

Pupils will be challenged to follow a set of step-by-step instructions to complete this fun, creative, festive activity.

The teaching resource can be used as a printed handout for instruction in class time, or for display on the interactive whiteboard.

### Activity:

Get the children to have a go at completing this craft activity. Once they've finished, why not use their paper daffodils as part of a classroom display about spring? To further challenge their creativity, ask the children to use our primary resource as inspiration for making their favourite flower, too. Once they've decided on their flower, get them to think about what materials, crafts and equipment would work well. All their colourful creations will make a great classroom display for summer!
